

A robotic hand with blue and white metallic components is shown interacting with a laptop keyboard. The background features a vibrant gradient from red to blue, with subtle wavy lines suggesting motion or digital data flow.

VINATTA

AI CAN BE YOUR FRIEND

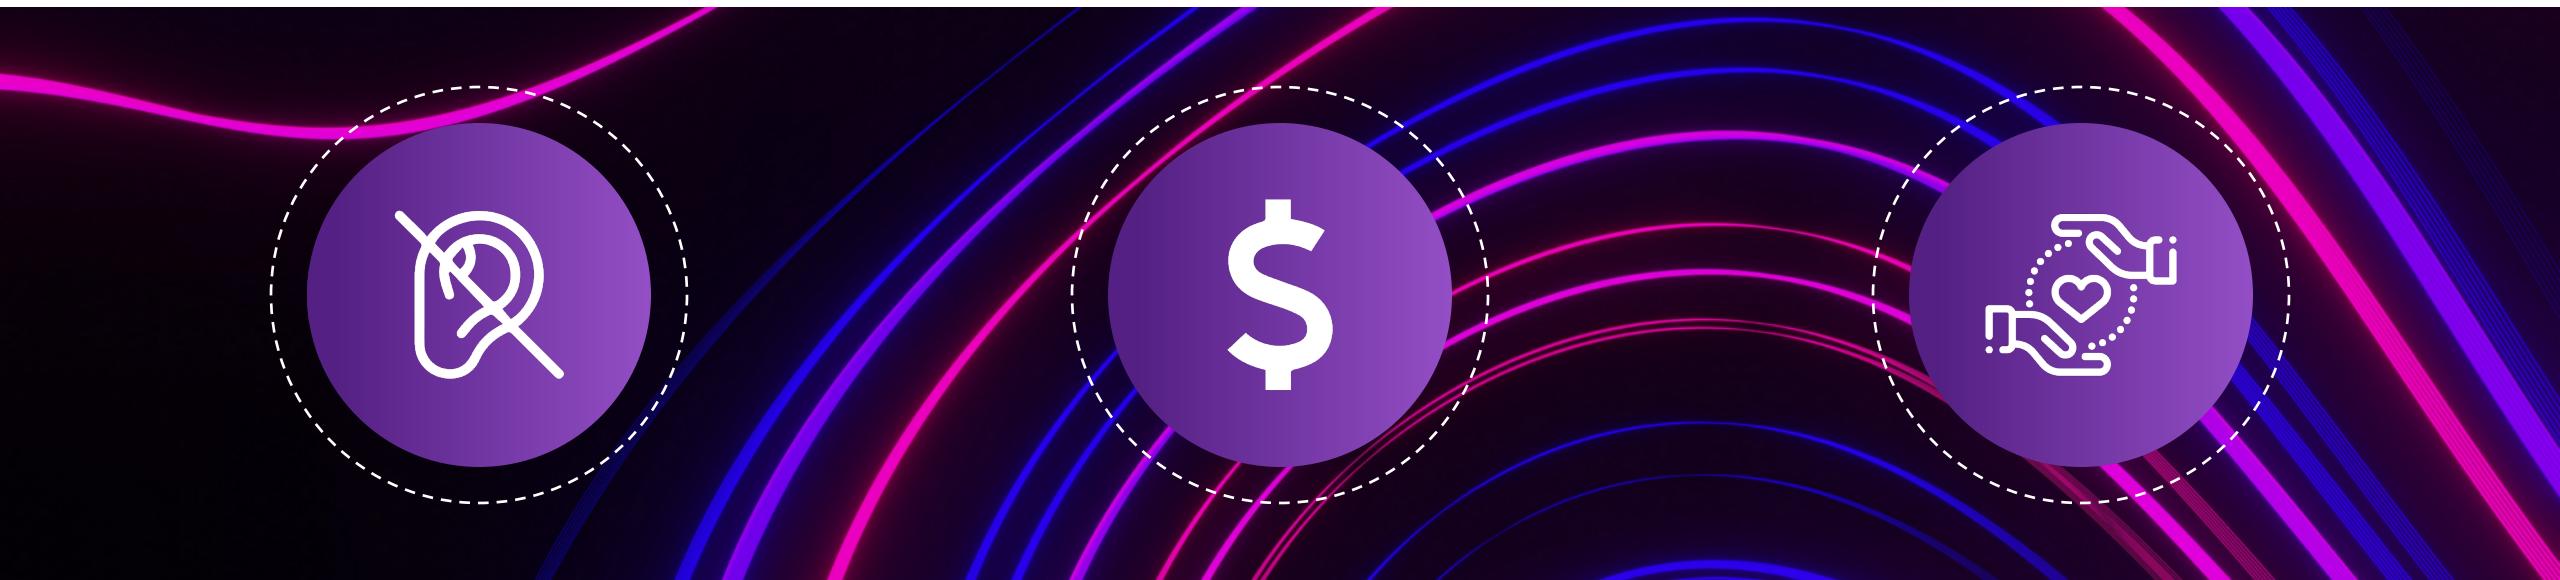

VINATTA

A.I and Data Science agency that aims to bolster patient engagement and automate R&D procedures.

PROBLEMS

Provider centric models in the Healthcare industry are hindering communication and financial technology.

NO ONE IS LISTENING

Low healthcare literacy levels and the inability to properly educate is creating a mass divide between patients and physicians.

MONEY IS A PROBLEM

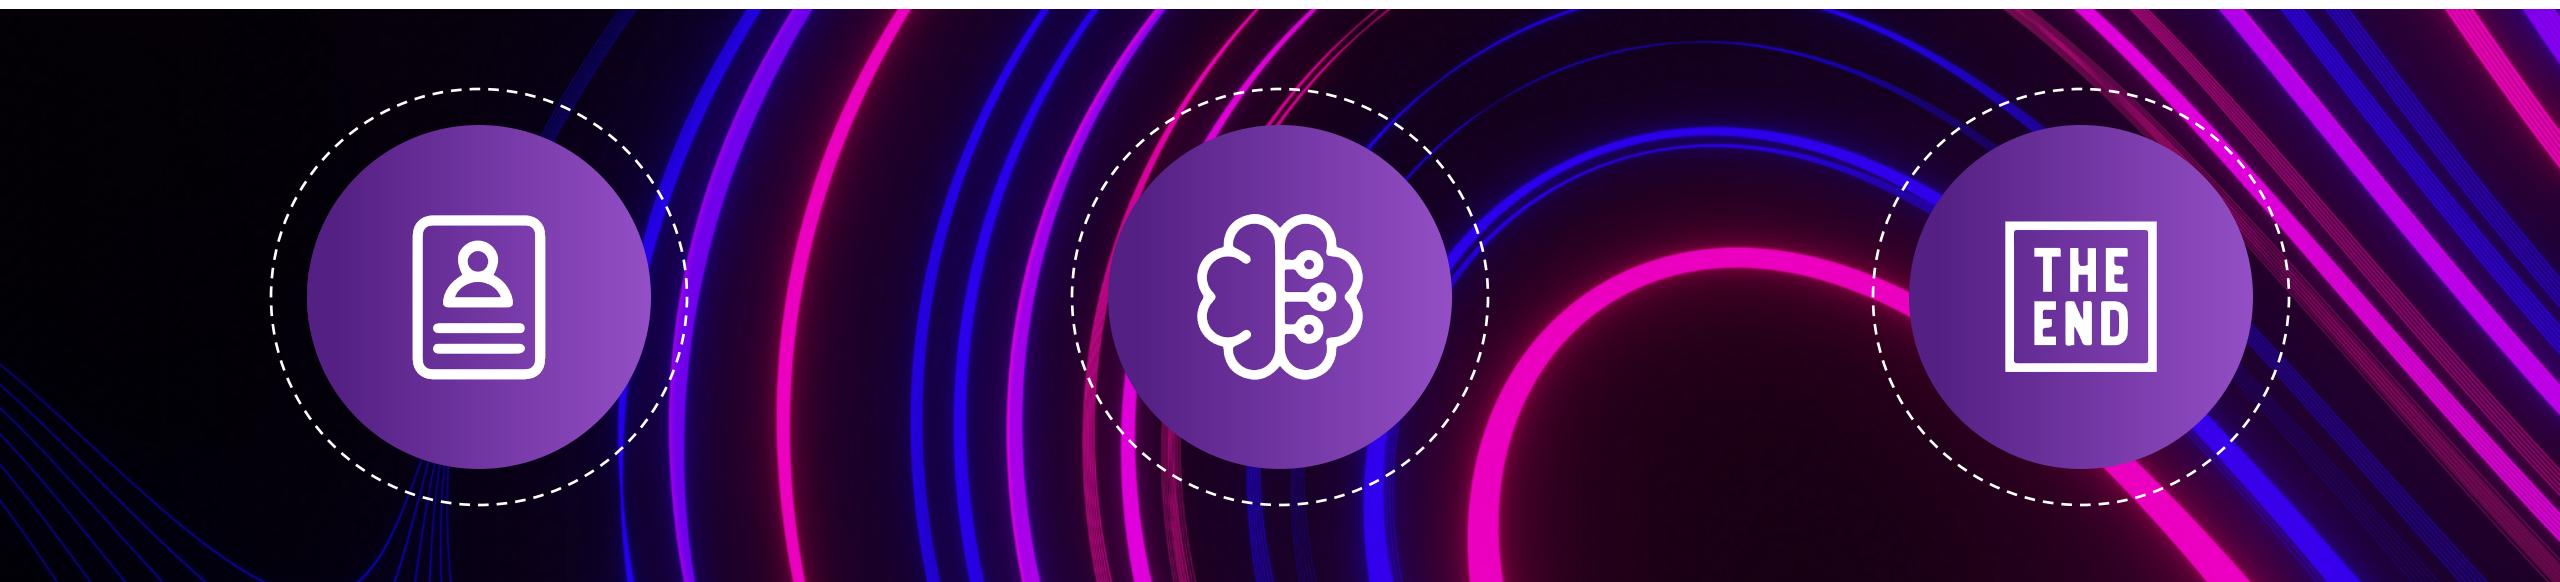

Imbalances between healthcare and insurance organizations are hindering patients from properly understanding the benefits they are entitled to.

I NEED HELP

Socioeconomic issues are increasing health based disparities, and limiting access to proper healthcare for the masses.

SOLUTIONS

Vinatta is here to not only engage, but educate the patient.

BUILDING A PROFILE

By implementing psychological and behavioral models coupled with sentiment analysis, patient profiles are created.

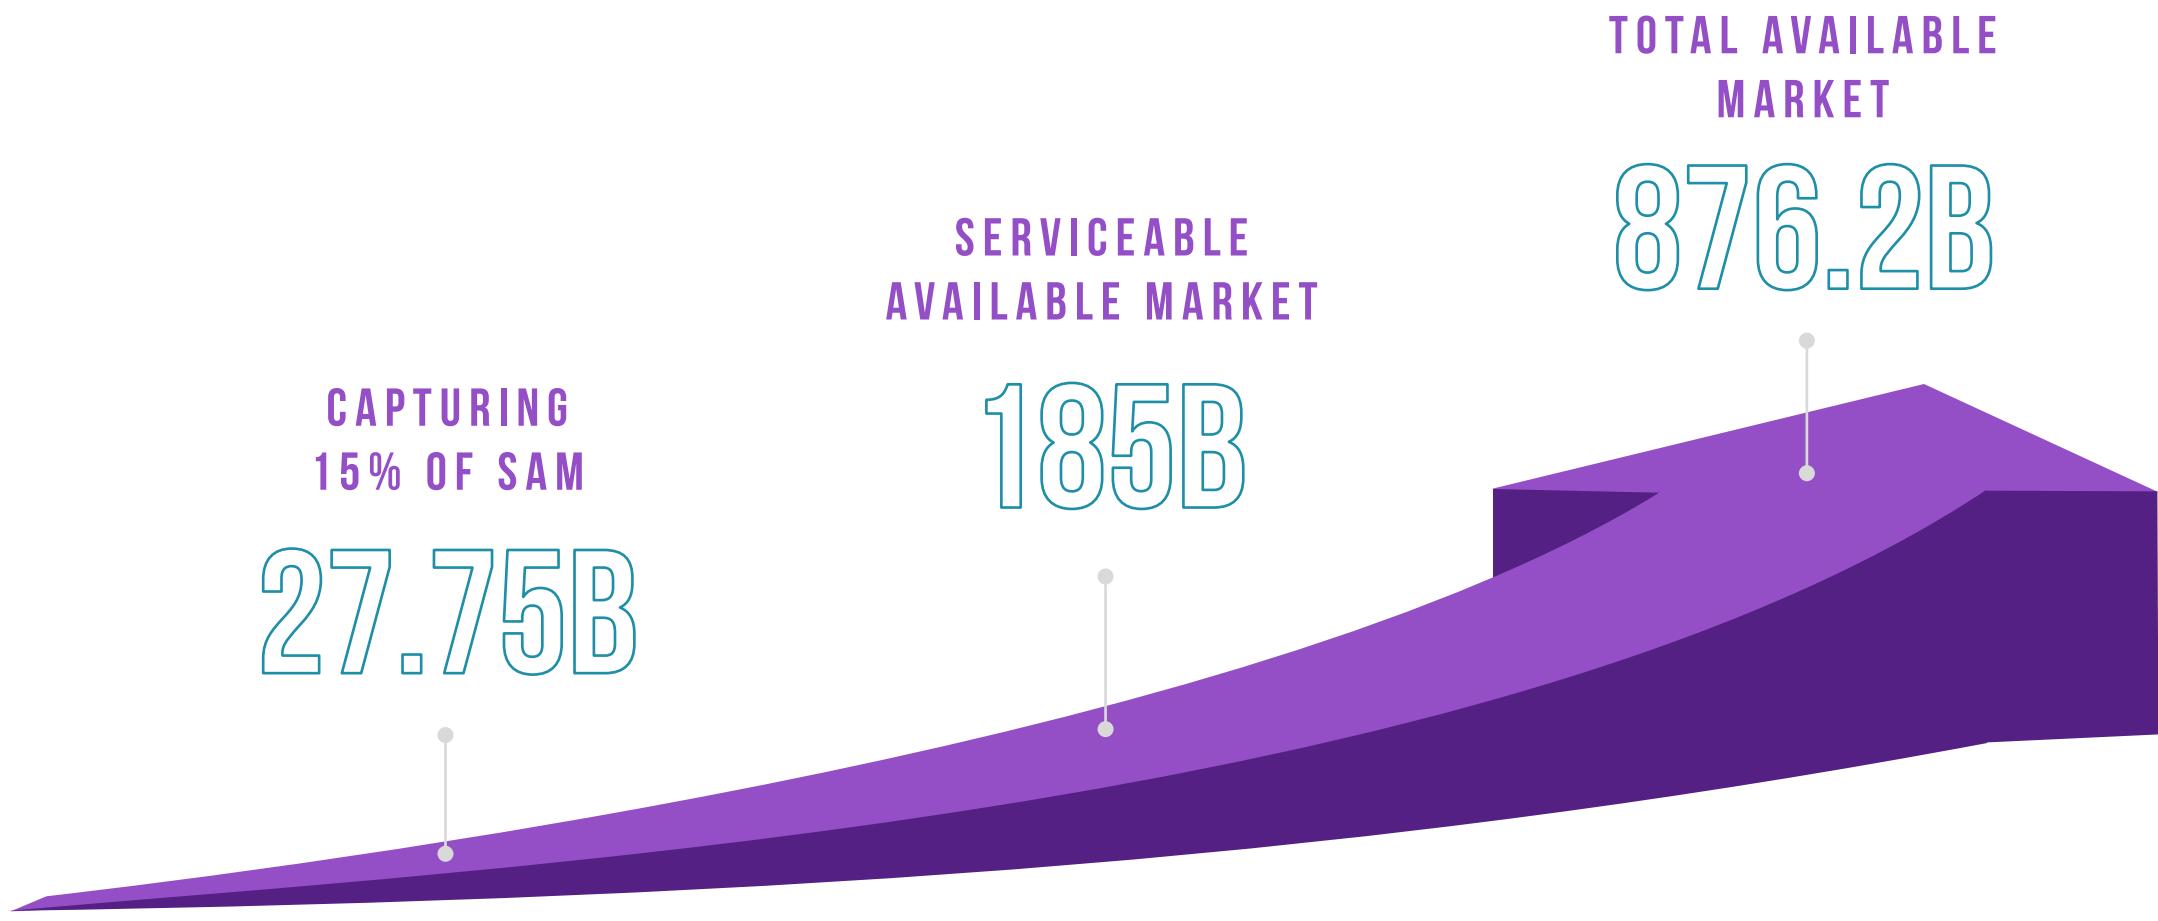

A.I IS HERE

Learning from patient interactions, measuring emotions in real time, gauging financial capabilities - Vinatta is here to understand and predict the patients needs.

THE END

All of this will allow for one simple output: a hand crafted message that educates the user on what they really need to know, and help re-engage them with their medical practitioners.

MARKET SIZE

WHY VINATTA EXISTS

#1

ENGAGEMENT NEEDS TO INCREASE

Physicians and patients need to rekindle their relationships

#2

MISINFORMATION IS RAMPANT

Understanding what your bills is a must.

#3

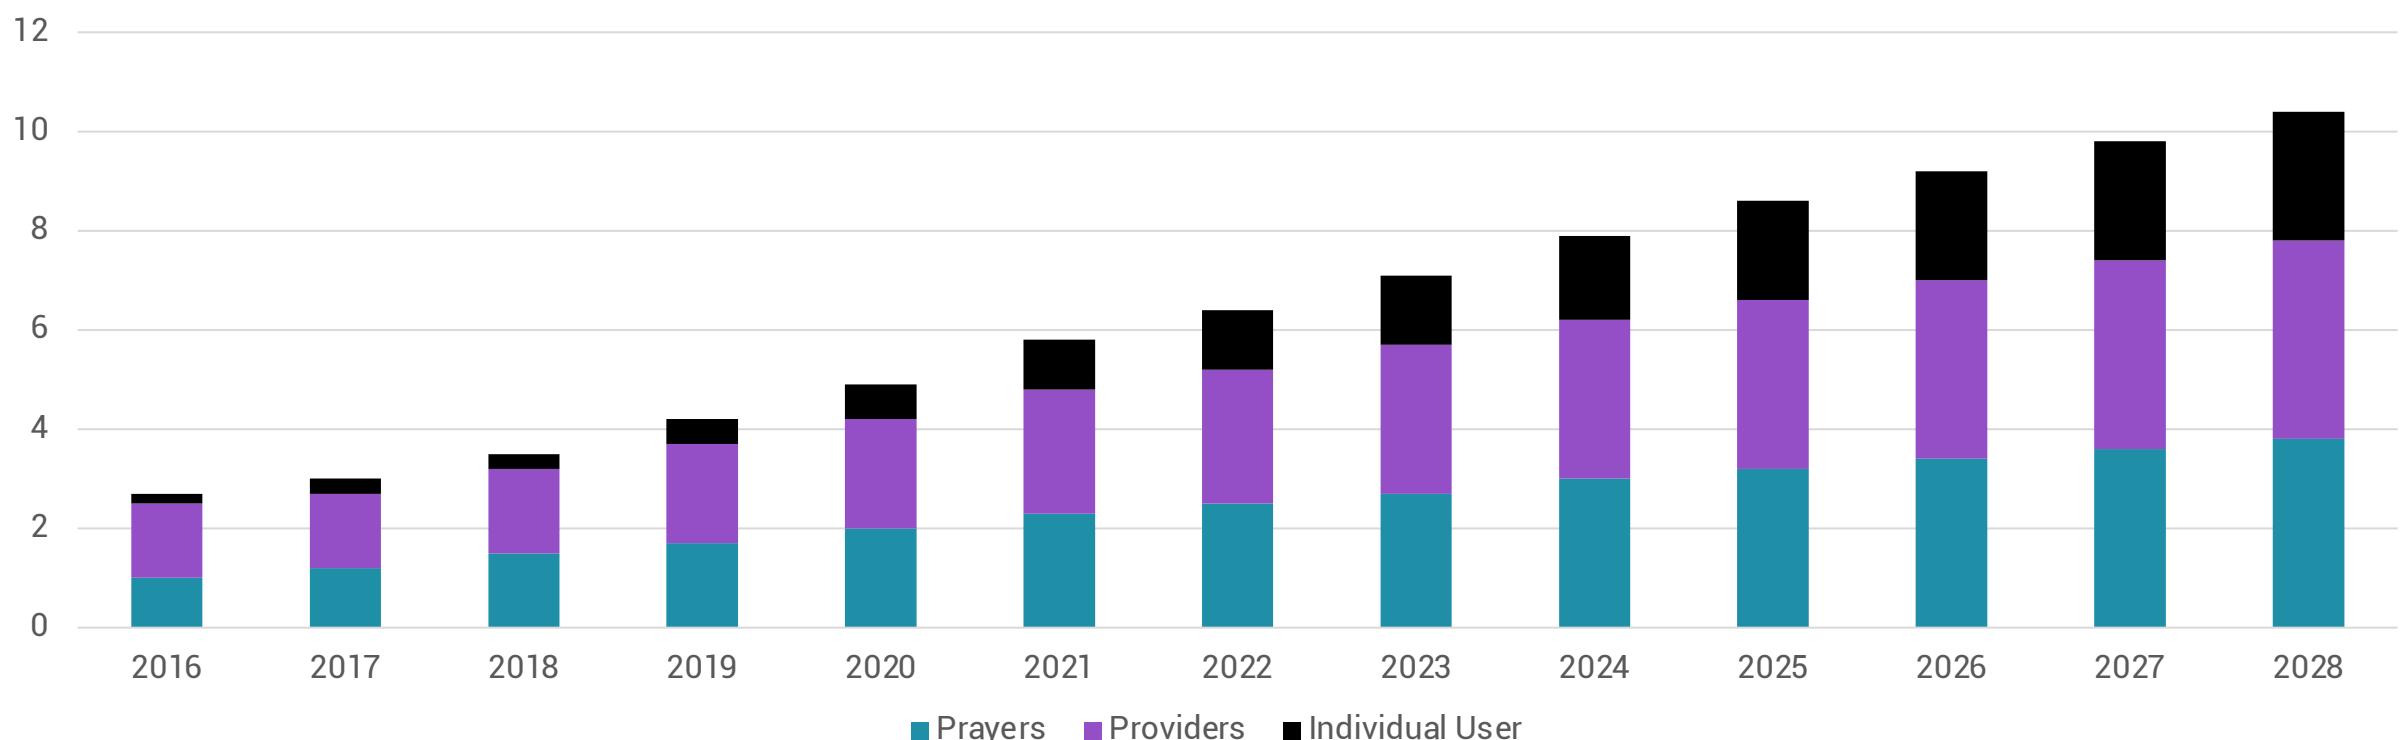

EMPATHY IS NO WHERE TO BE FOUND

Patients need to be treated as people, and people can get confused.

TRACTION

Patient engagement trends

NORTH AMERICA PATIENT ENGAGEMENT SOLUTIONS MARKET SIZE, BY END-USE, 2016 – 2028 (USD BILLION)
